### Blaise Requirements

Please check the type of license and specify the number of developers and application users below.

**Application Users** refers to the number of workstations and/or laptop computers upon which or from which a Blaise application is accessed for interactively collecting, entering, editing or reviewing data using any combination of the Data Entry Program, Manipula, or other provided or user-developed software that uses prepared ("compiled") Blaise data models or instruction files. All other usages of Blaise fall under Developers and Other Uses.

**Developers and Other Uses** refers to all uses of the Blaise system not included under Application Users above. This includes but is not limited to those who use the Blaise software for: creating, debugging, and preparing ("compiling") Blaise applications using the Developer's Environment; use of Blaise to analyze survey data; batch processing of data using Blaise; the use of Blaise to manage survey processes (other than by application users), including CATI supervisors; and any other uses of Blaise not defined under Application Users. Web-usage is priced separately. If using web services, please check the web box below.

### Type of License Usage
